ABOUT COMPANY

In the 21st century, generator companies continue to innovate and adapt to changing market dynamics and customer needs. The focus has shifted towards sustainability, with companies developing more efficient and environmentally-friendly generator solutions. Additionally, advancements in digital technology have led to the development of smart generators with remote monitoring and control capabilities

Logmate Engineering & Services established in 2004 and it is a dynamic and customer-centric provider of generator sets (gensets) and comprehensive power solutions. With a steadfast commitment to quality, innovation, and customer satisfaction, we cater to a diverse clientele across various industries, ensuring reliable and efficient power supply for their critical operations.

Due to the diversified need of the services we introduced a sister concerns with the names of **M/s XG Solutions** which own a large number of diesel generators and equipment to fulfill the prevailing demand of the telecom, oil and gas, mining and construction sectors of the country.

LOGMATE

CEO MESSAGE

ENGR.

TARIQ MEHMOOD

I am honored to welcome you to Logmate Engineering & Services, where innovation, reliability, and excellence converge to power the future.

Since our inception, Logmate has been at the forefront of providing cutting-edge generator solutions to meet the diverse needs of our customers. With a relentless focus on quality and customer satisfaction, we have established ourselves as a trusted leader in the industry.

At Logmate, we understand the critical role that reliable power plays in driving success and powering progress. That's why we are committed to delivering superior generator solutions that exceed expectations and provide peace of mind to our customers.

I would like to extend my sincere gratitude to our customers, partners, and employees for their continued support and dedication. Together, we will continue to push the boundaries of what is possible and write the next chapter of success for Logmate Generator Company.

Thank you for choosing Logmate.

LOGMATE

COO MESSAGE

WASEEM SHAHZAD

At Logmate Power Company, our mission is to provide reliable, efficient, and sustainable power solutions that drive success for businesses and communities alike. As the Chief Operating Officer, my focus is on ensuring seamless operations, exceptional service delivery, and continuous innovation to meet the evolving energy needs of our customers.

In today's fast-paced world, uninterrupted power is not just a necessity but a key driver of growth and stability. At Logmate, we are dedicated to empowering industries with reliable energy solutions, leveraging the latest technologies and best industry practices to ensure long-term efficiency and performance.

I extend my gratitude to our clients, partners, and team members for their trust and dedication. Together, we will continue to build a future where power is never a challenge but a strength.

We look forward to powering your success.

LOGMATE

1

MISSION

At Logmate Engineering & Services, our mission is to deliver cutting-edge power solutions that empower businesses to thrive in today's dynamic environment. We strive to exceed customer expectations by offering superior products, unrivaled service, and innovative solutions that enhance productivity and reliability.

2

VISION

Empowering a resilient world with reliable power solutions, Logmate Engineering and Services envisions a future where every individual and organization can operate seamlessly, confident in the uninterrupted availability of power. Through innovation, integrity, and unwavering dedication to customer satisfaction, we strive to be the foremost provider of genset solutions, setting the standard for excellence in the industry and driving sustainable progress for generations to come.

OUR SERVICE

We specialize in a wide range of services tailored to the genset industry, including:

- **Genset Installation:** Professional installation services to ensure seamless integration into your infrastructure.
- **Maintenance and Servicing:** Scheduled maintenance programs to keep your gensets running at peak performance.
- **Repairs and Troubleshooting:** Prompt and efficient repair services to minimize downtime and maximize reliability.
- **Upgrades and Retrofitting:** Solutions to enhance the performance, efficiency, and compliance of your existing genset fleet.
- **Remote Monitoring and Control:** Advanced monitoring systems for real-time insights and proactive management of your power assets.
- **Rental Services:** Flexible rental options for temporary power needs, from events to emergency situations.
- **Consulting and Advisory:** Expert guidance to help you make informed decisions about your power infrastructure.

OUR SERVICE

Design and Consultation: Logmate can provide expert design and consultation services to help clients assess their solar energy needs.

Installation: Logmate offers professional installation services for solar energy systems, ensuring that they are installed safely, efficiently, and in compliance with relevant regulations and standards.

Maintenance and Repairs: Logmate provides comprehensive maintenance and repair services to ensure the ongoing performance and reliability of solar energy systems.

Monitoring and Performance Analysis: Logmate offers monitoring and performance analysis services to help clients track the performance of their solar energy systems in real-time.

Upgrades and Expansion: As clients' energy needs evolve over time, Logmate can provide upgrade and expansion services to enhance the capacity, efficiency, and functionality of existing solar energy systems.

Off-Grid and Hybrid Solutions: Logmate offers off-grid and hybrid solar energy solutions for clients in remote or off-grid locations, as well as those looking to reduce their reliance on the grid or integrate renewable energy sources with existing power systems.

A photograph of several rows of industrial electric control panels. The panels are light grey or off-white, with various components like switches, circuit breakers, and digital displays visible on their faces. They are arranged in a long row, receding into the background.

OUR SERVICE

Logmate Services & Engineering provides services in electric panels and switches, they likely offer a range of solutions related to electrical distribution and control systems. Here's what we might provide in this area:

- **Electric Panel Design and Fabrication**
- **Installation and Commissioning**
- **Panel Upgrades and Retrofits**
- **Switches and Circuit Breakers:**
- **Control Systems Integration**
- **Safety and Compliance**

OUR SERVICE

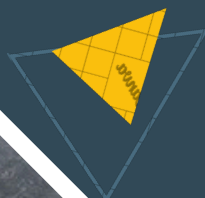

HVAC Supply & Installation Services

Logmate Engineering & Services provides professional solutions in the supply, installation, and commissioning of HVAC systems, including industrial-grade chillers, VRF/VRV systems, and split units. Our services cover:

- Design & Load Calculation:** Comprehensive heat load analysis and system design tailored to client requirements.
- Chiller & Split Units Installation:** Supply and installation of high-efficiency air- and water-cooled chillers, ducted systems, and split AC units.
- Ducting & Piping Works:** Complete chilled water piping, ducting, and insulation works with international standards.
- Electrical & Control Integration:** Installation of control panels, wiring, and automation for efficient operation and monitoring.
- Testing & Commissioning:** Performance verification, balancing, and commissioning to ensure maximum efficiency and reliability.
- After-Sales Support & O&M:** Preventive maintenance, troubleshooting, and long-term service contracts for sustained performance.
